Avant-propos

Ce nouveau bulletin trimestriel de conjoncture répond à l'engagement pris par l'Institut National de la Statistique du Burundi (INSBU) de présenter chaque trimestre, à une date fixe, des informations conjoncturelles mises à jour. Il rassemble un grand nombre d'informations statistiques à caractère économique visant à présenter une vue synthétique de l'économie burundaise.

Après un bref aperçu sur ce qui concerne l'environnement international, ces données permettront de formuler plus aisément des diagnostics conjoncturels, non seulement à l'attention des décideurs nationaux, mais aussi aux partenaires financiers et à l'ensemble des acteurs économiques publics ou privés. Elles permettront également de fonder les prévisions des évolutions de l'économie burundaise. L'amélioration du suivi de la conjoncture est l'un des piliers du large processus de modélisation des statistiques économiques.

La production de ce bulletin utilise et adopte un format harmonisé avec les publications de la plupart des pays d'Afrique subsaharienne. Il servira de base pour la publication de la note de conjoncture qui permettra de diffuser, deux semaines après le bulletin, une analyse de la situation conjoncturelle du pays.

L'INSBU compte particulièrement sur l'ensemble des organismes producteurs d'informations, publics et privés, ainsi que les administrations dont le concours a permis l'élaboration de ce document et les appelle à développer davantage ce partenariat pour permettre à l'ensemble des acteurs économiques de disposer d'une information aussi complète que possible, à jour et régulière sur l'économie nationale. Il les remercie à l'avance de leur participation.

Toutes les remarques sur les données, la présentation, les graphiques disponibles etc., sont les bienvenues. Ces suggestions aideront l'Institut et plus particulièrement l'équipe en charge de la conjoncture, à améliorer progressivement la qualité de cette publication.

LE DIRECTEUR GENERAL DE L'INSBU

NICOLAS NDAYISHIMIYE
